

Coffee and discussions at Silverpoint Court Residential Care Home

We had a lovely coffee morning with the Weekly Sparkle magazine this week at Silverpoint Court Residential Care Home.

Our residents talked about **Liberace**, how flamboyant he was and how he played the piano. We discussed the '**Dam Buster**' **bombs** that helped to slow down the Germans in World War 2, going on a **steam train** and also the **first woman in space**, Helen Sharman. *We do like to mix it up!*

We also discussed how some of us preferred blankets and others liked a duvet, not to mention **how socks go missing** when put in a washing machine! *We agreed that the washing machine must eat them!!*
